

Iowa Scaled Engineering

22750 County Road 37, Elbert, CO 80106

ProtoThrottle Giveaway !!

The first ProtoThrottle was manufactured over five years ago and thanks to an enthusiastic ProtoThrottle user base, and a growing community engaged by the most realistic train control on the market, we just crossed the 1000th throttle mark!

To celebrate, Iowa Scaled Engineering in conjunction with ModelersLife, will be giving away ProtoThrottle #1000 in a drawing held Sunday, January 29, 2023, at the Amherst Railroad Society Railroad Hobby Show. Stop by the ModelersLife booth in the Better Living Center to enter.

Entry into the drawing is free and we will be accepting donations to benefit the Colorado Model Railroad Museum, "...where a miniature world of wonder awaits." The museum is an amazing ambassador for the hobby and we're happy to help support their efforts!

Join us Sunday afternoon for the giveaway.

ProtoThrottle™
Realistic Control Stand Throttle
